

Enforcing Foreign Judgments: Strategies, Tools and Tactics From the Trenches

June 02, 2021

A successful judgment or arbitral award is often only the first step in obtaining recovery for your clients. The unsuccessful party frequently hides assets or refuses to pay, requiring extensive enforcement efforts. This panel of experienced lawyers will discuss how to lay the groundwork for successful recovery, options for preserving assets to prevent dissipation, and tools available across jurisdictions to facilitate prompt payments by unwilling debtors. The strategies discussed will include those that help Canadian clients enforce judgments abroad, as well as foreign clients who look to recover proceeds in Canada.
